As anticipated earlier this year, **IETA and the International Air Transport Association (IATA) have recently entered into an MoU to cooperate in the development and execution of regional workshops for airlines on compliance with the Global Market-Based Measure (GMBM)** recently agreed by the ICAO. The workshops will focus on sharing best practices and lessons learned on carbon markets and MRV compliance from IETA members directly with IATA member company airlines and aircraft operators.

**IETA members will be provided with a key opportunity to help shape industry preparations and perspectives on carbon markets as the GMBM and its CORSIA (Carbon Offsetting and Reduction System for International Aviation) move into an implementation phase.**

The tentative dates and locations for the IETA-IATA aviation carbon market workshops are as follows:

1. *Nairobi, February 14 – 15*
2. *Casablanca, February 21 – 22*
3. *Geneva, February 28 – March 1*
4. *Miami, March 14 – 15*
5. *Singapore, March 22 – 23*

The exact locations of the workshops will be shared on the IETA website and with IETA members who will be participating directly.

These workshops will be a key opportunity to meet and network with major airline representatives who will be responsible for managing their compliance under the ICAO GMBM. We therefore decided to offer IETA members the opportunity to gain visibility by contributing to ensuring that this series of event is a success.

The below Partnership opportunities are meant to cover IETA's costs sustained in organising the workshops, and will offer IETA members unique visibility at these events.
