ASIA CLIMATE SUMMIT 2022

Carbon Markets for Net Zero: An Era of Growth, Convergence, Innovation and Opportunity

Introduction

After two years apart, we at the International Emissions Trading Association (IETA) look forward to welcoming delegates to our flagship [Asia Climate Summit \(ACS\) 2022](#) on **6-8 December** in Singapore.

The Summit, taking place at the [Marina Bay Sands Convention Center](#) at, is the ideal forum to take-stock the world's evolving net zero landscape and clean growth opportunities. Join us in Singapore to hear from policymakers, business and innovators who are leading the pack in building, scaling and collaborating on markets for net zero.

Organised by IETA, in collaboration with ICAP and the IEA, ACS 2022 is an in-person event with some sessions in a hybrid format to allow for virtual participation. The Summit features keynote addresses, high-level plenaries, cross-cutting deep-dive workshops and roundtables, and a central 'Carbon Market Lounge' with Partner Sponsors display counters, a networking chill-out lounge, and catering area.

Daily Snapshot

6 December – PRE-DAY: Closed door meetings & Invitation only events & ACS Official Welcome Reception at the ArtScience Museum (opened to all ACS Delegates)

7 December – DAY 1: Summit sessions & Partner Sponsors side event sessions, opened to all delegates & IETA Members Nightcap Reception (for IETA Members only)

8 December – DAY 2: Summit sessions & Partner Sponsors side event sessions, opened to all delegates

Detailed Agenda (subject to updates)
