

GLOBAL CARBON MARKETS AND CCS: TOWARDS ASEAN DECARBONIZATION

JANUARY 25-26, 2023

14:00~16:45 JST (TOKYO) | 12:00~14:45 UTC+7 (JAKARTA)

Carbon Capture and Storage (CCS) is gaining momentum all over the world. To facilitate CCS project development, it is necessary to foster common understanding on its potential in climate change mitigation, as well as its issues and risks.

Join us in a 2-day workshop to learn about good practices in using the carbon markets and be part of the efforts in accelerating ASEAN decarbonization.

TOPICS

DAY 1

OVERVIEW OF CARBON
MARKETS AND CCS
CARBON CREDITS

- TRENDS IN THE GLOBAL CARBON MARKETS
- POSITION OF CCS IN THE GLOBAL CARBON MARKETS
- CCS FEASIBILITY STUDIES THROUGH JOINT CREDITING MECHANISM (JCM)

DAY 2

CCS-RELATED
METHODOLOGIES,
PROJECT CYCLE &
FINANCING

- CARBON CREDITS AND ECONOMIC VIABILITY OF CCS PROJECTS
- VERIFIED CARBON STANDARD BASIC REQUIREMENTS AND METHODOLOGIES
- CCS CO-BENEFITS
- CCS FINANCING CASE STUDIES
- CREDITING/OFFSETTING POTENTIAL OF CCS

SPEAKERS

(tbc)
METI

Dirk Forrister
IETA

Dr Koji Yamamoto
JOGMEC

Noora Al Amer
Global CCS Institute

Kensuke Shiomi
METI

Kikuko Shinchi
MRI

Gerald Ouellette
Verra

Christiaan Gevers
Deynoot
CCS+ initiative

Matthias Krey
Perspectives Climate
Group

Maris Densmore
American Carbon
Registry

Elise Roc
Northern Lights

Patrick Bürgi
South Pole
